

## Bed Bug Treatment Preparation List

- ALL** clothes need to be removed from dresser drawers, washed in hot water and dried on hottest setting. Do not bring them back into the residence until treatment is complete.
- Remove **ALL** drawers and place in middle of the room.
- ALL** bed linens, pillows and throw blankets need to be washed in hot water and dried on the highest setting. Do not bring them back into the residence until treatment is complete.
- Move **EVERYTHING** 2 ft away from walls.
- Separate box spring and mattress and stand them up against the wall.
- Remove **ALL** lower outlet covers.
- Vacuum ENTIRE** home (including the mattress, headboard, box spring, couches and chairs). Bagless vacuums: empty the container and throw away the garbage **OUTSIDE** of the residence!
- Pull up **ALL** throw/area rugs and hang them over a chair(s).
- ALL** people, pets, clothing and bed linens should be removed from the residence for the duration of the treatment and are **not to return inside until FOUR HOURS after completion of treatment.**
- FYI: We will cut a small hole in the black felt underneath box spring and sofas in order to treat the interior.

## Bed Bug Treatment After Care

Please read **BEFORE**, but complete **AFTER** we have serviced your home.

- Vacuum Vacuum Vacuum!** You need to vacuum often after we do the service. Vacuum floors, crevices under baseboards, seams of the mattress, edges of the box springs, crevices in the headboard, couches, chairs and any area you had been having an issue before treatment.
- Do **NOT** mop the floors or clean the mattress with any type of water or cleaning product. You should, however, wash and dry your bedding. The product is a residual and will continue to work through the life cycle of the insect.
